

20 July 2021

Dear Esteemed Exhibitors, Sponsors and Partners,

Following the recent increase in COVID-19 transmissions in Bangkok and the announced measures by the Thai government (e.g. curfew imposed in Bangkok and five adjacent provinces), VNU Asia Pacific as organizer, together with the Science and Technology Trade Association (STTA) and Thailand Center of Excellence for Life Sciences (TCELS) would like to announce the **postponement of Thailand LAB INTERNATIONAL 2021 from its original date to (NEW DATE) OCTOBER 27-29, 2021 at Halls 101- 102, BITEC, Bangkok.**

Thailand LAB 2021 together with FutureCHEM INTERNATIONAL 2021, the new show concept for the Chemical Industries will further provide a substantially upgraded **Hybrid Platform** (Physical Exhibition + Conference + Online Platform) **during October 27-29, 2021** for the maximum benefit and flexibility of all participants in accessing our exhibition and conference platform. As of now, pre-registration, show information, floor plan, virtual exhibition, online conference and online business matching with target buyers is available through this new platform. Please visit www.thailandlab.com for more information/registration.

Bio Asia Pacific 2021 will keep the original show dates and provide a **fully Virtual Platform** for both exhibition and conference **during September 1-3, 2021**. No physical exhibition will be conducted. Please visit www.bioasiapacific.com for more information/registration.

For further operational processes, including exhibitor pre-registration, online exhibitor portal, booth payment, new virtual booth packages, exhibitor manual, exhibitor briefing etc., our Thailand LAB team will contact you directly for further preparation and timeline.

VNU Asia Pacific, in close cooperation with all stakeholders and the exhibition venue, ensure that **all strict hygiene and security procedures will be implemented throughout the entire show area during the physical shows Thailand LAB and FutureCHEM 2021 at BITEC during October 27-29, 2021.**

Best regards,

**Thailand LAB INTERNATIONAL
Bio Asia Pacific
FutureCHEM INTERNATIONAL**
